G. Donald Jud\*

**Abstract.** This paper provides a catalogue of the papers published in *The Journal of Real Estate Research* during its first ten years of operation, 1986–96. Articles are indexed by volume and number of *The Journal*, author, title, and subject.

*The Journal of Real Estate Research*, the first official publication of the American Real Estate Society, was initiated in 1986. The purpose of *The Journal*, as stated in its first issue, was "to publish articles . . . in the broad applied areas of Real Estate Finance, Real Estate Investment Analysis and Decision Making, Real Estate Valuation, and Real Estate Market Analysis."

The first issue (Volume 1, Number 1) of *The Journal* appeared in Fall 1986. Charles H. Wurtzbaach was the editor. The second issue (Volume 2, Number 1) was published Fall 1987, with Larry E. Wofford as editor. Donald R. Epley became editor with the Winter 1987 issue (Volume 2, Number 2) and guided *The Journal* through Volume 5, Number 2 (Summer 1990). G. Donald Jud took over the editorship with Volume 5, Number 3 (Fall 1990), and has continued through the present.

The first ten years of *The Journal* saw the publication of 257 papers. The articles are listed in order by volume and number in Appendix A. They are arrayed by author in Appendix B and by title in Appendix C. In Appendix D, papers are categorized by subject.
